Course description:

This course provides an understanding of the growth and development of infants, toddlers, preschoolers and elementary children. Students learn theory, physical, social/emotional and intellectual growth and emergency procedures during specific developmental stages. Students will have the opportunity to explore the wide variety of career paths in child development. In addition, students will complete observation hours in our on site child care program. (once back on campus)

Learning Outcomes:

Students will-

- Understand growth and development from conception through elementary school
- Learn theories of development and age specific emergency procedures
- Explore career paths in child development
- Participate in observation hours at the on-site child care center (when back on campus)
- Develop skills that will qualify them for the hands on childcare course on campus

Classroom Expectations & Procedures:

You will succeed in this course if you do the following:

- Attend daily zoom meetings during the assigned class period
- Be kind to others
- Be respectful of the privacy of others, no screenshots or recording
- Ask for help when you need it
- Stay focused
- Turn assignments in on time.
- Students are responsible for work missed when they are absent.
